

Graduate Profile

-Community Input Needed-

Zuni Public Schools (ZPSD) is asking for community input. We are facilitating discussions with a variety of stakeholder groups to better understand the knowledge, skills, values, and cultural/linguistic competencies high school students should have mastered by the time they graduate in order to succeed in college, career, and life. Our findings will help ZPSD make plans regarding policy and practice at all grade levels, and develop local partnerships. This process will help ZPSD to:

- Better align services throughout the school district
- Deliver content learning with a Zuni perspective
- Ensure that students are not defined solely by a test score
- Provide a cornerstone for backward planning

Who?

ZPSD is seeking input from the Zuni people. We need volunteers for the following focus groups;

- Parents of Special Education students
- Zuni people who are not living in the community of Zuni
- Recent ZHS or TBCA Alumni (Graduates from 2017, 2018, 2019)

What?

Focus groups will meet with a facilitator and note taker to discuss a series of questions that will help the district define the high school Graduate Profile.
